### **KL7RRC Kiska Island NA-070, Alaska -update**

Two pallets weighing 983 pounds and containing much of the equipment required for our upcoming KL7RRC operation set for July, was opened and inventoried today as we continue preparation for the much anticipated IOTA DXpedition to Kiska (NA-070) and Adak Islands (NA-029) located in Alaska's remote Aleutian Islands. These IOTA activations will be conducted by members of the Russian Robinson Club and we will be using the Club callsign KL7RRC from both IOTA Island operations.

The two pallets were actually sent to Alaska last year in advance of the originally planned 2020 trip which was unfortunately cancelled due to Covid-19.

This KL7RRC equipment has been stored for over a year by KL7RRC team member Tim NL8F. Tim is a veteran DXpeditioner who lives in Dutch Harbor on Amaknak Island, Unalaska, Alaska. History buffs will also know that Dutch Harbor was the location of the Battle of Dutch Harbor in June 1942, and was one of the few sites in the United States to be subjected to aerial bombardment by a foreign power during World War II.

### **Video A25RU / C92RU**

Throughout the Covid-19 pandemic, the Russian DXpedition Team managed to stage 3 expeditions – 7Q7RU, A25RU & C92RU. Here's a video of the latter two DXpeditions.

### **WSJ article on DXing**

*For the past few days we've been sent a link by readers to a Wall Street Journal article written by John McCormick titled "[One Group's Post-Pandemic Travel Plan: Get as Far Away as Possible](#)". The article is behind a pay-wall, however over on [eHam](#) it was posted in full, and now we duly do too, with full credit to WSJ.*

Dom 3Z9DX

Of the many post-pandemic travel plans being hatched around the world, few are as extreme as what ham-radio operator Dom Grzyb has in mind.

The semi-retired Polish businessman looks to spend tens of thousands of dollars this year to lead a group of eight to Bouvet Island in the southern Atlantic, an uninhabited locale largely covered in glacial ice. The odds aren't favorable.

High winds and massive waves batter ships entering the region. Among travelers who manage to catch sight of Bouvet Island, which belongs to Norway, some never make shore. Slivers of beach give way to steep rock and ice formations that reach 100 feet and higher.

"It's the most remote island in the world," said Mr. Grzyb, 47 years old. "It's also one of the most dangerous places in the world."

Bouvet Island also ranks as the second most-wanted place in the world to contact among ham-radio enthusiasts. These destinations lure the most adventurous of the estimated three million operators worldwide to set up temporary transmitting stations.

### **VK6SJ/4 Torres Strait Group OC-138 -update by Steve**

I completed my week on Coconut and Thursday Islands between the 3rd and 9th May. I did use a few different versions of callsign during the operation for one reason or another (VK6SJ/VK4 and VK4/VK6SJ as well as just VK6SJ). What will be going in the logs will be VK6SJ/4 so please amend your log entry accordingly. I made just over 400 contacts and I am in the process of getting the logs validated with IOTA. Any contacts made with my callsign between the 3rd and 9th May will be from OC-138. Grid locations for this trip were QH19mw on Coconut Island and QH19ck for Thursday Island.

### **North American QSO Parties to recognize young contesters entries (TNX KY7M)**

To encourage young radiosport participants, *National Contest Journal* (NCJ) will recognize their entries in the North American QSO Party ([NAQP](#)), starting with the August 2021 NAQP CW and NAQP SSB events. Following the lead of Youth on the Air ([YOTA](#)) in International Amateur Radio Union Region 1 ([IARU](#)), operators 25 years old and younger will be highlighted in the results. The NAQP log upload app and [3830scores.com](#) will include a "Youth (25 and under)" check box. Initially, the young operator designation will apply only to single-operator entries. This is not a separate category. Participants of any age will compete for awards in the regular single-operator category. [3830 Scores](#) will display the young operator scores as an overlay to the single-operator group. NAQP line scores will note the young operator scores and a separate table of these scores will be included in the results and referenced in the NCJ "NextGen Contesters" column by Neil Rapp, WB9VPG.

### **Russian District Award**

<http://rdaward.org/indexeng.htm>

Our diploma program has been around for 20 years, and its main goal is to get cfm for QSO with all districts of Russia.

We have developed an automatic RDA district cfm specifically for fulfilling the requirements of the diploma program:

<https://mydx.eu>

This service makes the participation as easy as possible. You do not need to create an application and send it to the Diploma Manager – all you need to do is to send in your payment and your post address. You can get either one or several diplomas – it is up to you. For your convenience we have created special version of RDA dx-cluster where you can easily see those RDA-s that you don't have confirmed yet.

You also have a possibility to have a sound notification when your unconfirmed RDA is spotted. Go and check it out:
